

SCVO Funding Digest

3rd – 16th December 2018

Welcome to another edition of SCVO's fortnightly 'Funding Digest'.

As ever, you will find a snapshot of funding opportunities, large and small, to complement the other support services that we offer. However, if every two weeks just isn't enough to satisfy your funding appetite, why not sign up for our **funding portal**? It only takes a minute and you will be able to search a national database detailing most UK funding opportunities; there is **no cost** – yes, it really is **FREE** - and the search facility has been updated to make your search even easier:

www.scvo.info/local-vcs-intelligence/funding-portal/

For those who might be new to the Digest, it is compiled by researching a variety of sources. Unfortunately, there is not the time to research each item thoroughly and, therefore, the accuracy of information provided cannot always be guaranteed. **All users of the digest are encouraged to contact the funder or source of the information directly, using the web links or contact details provided.**

In addition, users can contact the Development Team at SCVO (on 0121 525 1127 or by e-mail at: support@scvo.info) to request assistance with identifying funders, making funding applications or planning your fundraising strategy.

Please also have a look at the [Information Appendix](#) to this digest – we have collated a number of very useful resources to help you with your funding applications.

Finally, SCVO, like many organisations that receive this digest, is a voluntary sector and charitable organisation that must report on outcomes and achievements to its funders and supporters. SCVO welcomes your feedback on the content, layout and value of the digest and, in particular, would like to know if, as a result of this or any previous digest, **you have applied for funding OR you have been successful in raising funds or acquiring resources.**

Please send all feedback to Stuart at the contact details given below.

ACT Foundation – Deadline: Rolling

Registered charities can apply for grant of up to £10,000 for work that enhances the quality of life for people in need, specifically the mentally and physically disabled. Priority is given to small and medium size charities making a significant impact in their community and who may lack the time and resources to be able to focus on their fundraising.

The Foundation's grants are awarded to projects that have a significant impact across one or more of four life “themes” and priority is given to organisations that clearly demonstrate this within their application for grant funding, these are: Health and Wellbeing; Independent Living at Home; Respite; and Transition.

Grants can support:

- Modifications to homes, schools, hospices etc
- The provision of specialist equipment such as the provision of specialised wheelchairs, other mobility aids and equipment including medical equipment to assist independent living
- Financial assistance towards the cost of short-term respite breaks at a registered respite centre.

Grants are awarded through two programmes:

- A fast-track Small Grants Programme for applications under £10,000
- A Large Grants Programme for applications of £10,000 or over.

Registered charities of any size can apply; however priority is given to small to medium size charities who are making a significant impact in their community and who may lack the time and resources to be able to focus on their fundraising.

Apply for a grant at any time; the Trustees meet six times a year, but procedures exist to give approvals between meetings.

In addition, and to ensure that young people are given the opportunity to learn about the sacrifices made by previous generations, an additional £1 million will be made available to support First World War battlefields tours for school students. This will build on the success of the existing First World War Centenary Battlefield Tours Programme which gives one teacher and two students from every state-funded secondary school in England a free accredited battlefield tour to the Western Front.

Village halls, Miners' Welfare and Armed Forces Organisations facilities are all set to benefit as many were built as memorials to local people who lost their lives in the first world war and often provide a focus in the community for veterans.

Government data shows that looked after children have significantly poorer educational outcomes than children not in care throughout primary and secondary school, with the gap widening as children get older. Young carers experience similarly poorer educational outcomes and studies suggest that almost a third of young carers experience educational problems, such as absenteeism, as a direct result of their caring role.

The programme offers funding and non-financial support and aims to pilot novel approaches to improving the educational attainment of these children and young carers which can be scaled up so that in time they are able to take advantage of opportunities afforded by tertiary education and employment. Funding of no more than £100,000 will be available over a 3-year period and match funding will be required.

Applications will be considered from educational or training institutions which have UK charitable status or, in the case of schools, colleges, universities and Churches, "exempt charity" status.

Family Fund is the UK's largest charity providing grants for families raising disabled or seriously ill children and young people. Last year, we provided 89,423 grants or services worth over £36 million to families across the UK. Beginning with the most vulnerable, those on low incomes, and considering all conditions against our disability criteria, we aim to make a difference to outcomes for disabled or seriously ill children and young people and the lives of the families raising them across the UK.

We provide grants for a wide range of items, such as washing machines, sensory toys, family breaks, bedding, tablets, furniture, outdoor play equipment, clothing and computers. It can be a struggle financially, emotionally and physically for families raising a disabled or seriously ill child, and these grants help break down many of the barriers families face, improving their quality of life and easing the additional daily pressures.

Sobell Foundation (The) – Deadline: Rolling

The Sobell Foundation was established by the late Sir Michael Sobell in 1977 for general charitable purposes and is a grant-making trust with which he was actively involved until shortly before his death in 1993. The deed of charitable trust, under which the Sobell Foundation was formed, is not specific about the objects of the Trust and allows the Trustees absolute discretion to apply funds for general charitable purposes.

We are not involved in fund raising and rely upon income from our investments to make grants. Grants tend to be made in line with the founder's interests which are principally causes benefiting children, the sick, elderly, needy and disabled. The Trustees aim to achieve a reasonable spread between Jewish charities (operating principally in the U.K. and Israel) and non-Jewish charities operating in the UK.

We will only consider applications from charities registered with the Charity Commission, or charities that hold a Certificate of Exemption from the Inland Revenue. Overseas applicants must supply the details of a UK registered charity through which grants can be channelled on their behalf.

We concentrate our funding on small national or local charities; the trustees are unlikely to support large national charities which enjoy wide support. We do not accept applications from individuals.

Funding for Schools

Ashden Trust – Deadline: rolling

The LESS CO2 sustainable schools programme is a free energy efficiency programme available to any UK school including council run, academy or independent schools.

Funded via the Ashden Trust, the programme consists of a series of half day workshops spread through the year, peer mentoring, expert advice and resources. Through participation in the programme, staff are empowered and equipped to make changes and improvements to their school to reduce their energy usage, save money on bills and lower their CO2 emissions. Schools work together, learning from each other in clusters of 15 schools in a suitable geographical area, attending four local workshops throughout a year. The workshops teach the school's representatives about energy saving in their buildings, how to engage with their fellow staff and students about energy, and educate them about the link between sustainability, energy use and efficiency. So far, 269 schools have benefitted from the scheme with those taking part saving on average £2,600 (and 10 tonnes of carbon) in their first year.

Every school in the UK is eligible to apply by registering an interest on the LESS CO2 website at any time.
