

SCVO Funding Digest

28th January – 10th February 2019

Hello and 'welcome' to another edition of SCVO's fortnightly 'Funding Digest' – ***don't they come around quickly!***

As ever, you will find a snapshot of funding opportunities, large and small, to complement the other support services that we offer.

Regular readers will know that a new edition appears every fortnight (Bank Holidays and staff resources permitting), **but you don't have to wait for each edition...** you can access funding information any time by signing up for our **FREE funding portal** It only takes a minute and you will be able to search a national database detailing most UK funding opportunities; there is **no cost** – yes, it really is **FREE** - and the search facility has been updated to make your search even easier:

www.scvo.info/local-vcs-intelligence/funding-portal/

For those who might be new to the Digest, it is compiled by researching a variety of sources. Unfortunately, there is not the time to research each item thoroughly and, therefore, the accuracy of information provided cannot always be guaranteed. ***All users of the digest are encouraged to contact the funder or source of the information directly, using the web links or contact details provided.***

In addition, users can contact the Development Team at SCVO (on 0121 525 1127 or by e-mail at: support@scvo.info) to request assistance with identifying funders, making funding applications or planning your fundraising strategy.

Please also have a look at the [Information Appendix](#) to this digest – we have collated a number of very useful resources to help you with your funding applications.

Finally, SCVO, like many organisations that receive this digest, is a voluntary sector and charitable organisation that must report on outcomes and achievements to its funders and supporters. SCVO welcomes your feedback on the content, layout and value of the digest and, in particular, would like to know if, as a result of this or any previous digest, **you have applied for funding OR you have been successful in raising funds or acquiring resources.**

Please send all feedback to Stuart at the contact details given below.

New in this Edition

BBC Children in Need – Main Grants – Deadline: 19th May 2019

Grants of over £10,000 per project are available through the BBC Children in Need Main Grants programme to not for profit organisations and schools that work with young people who are experiencing disadvantage through illness, distress, abuse or neglect; any kind of disability; behavioural or psychological difficulties; and / or living in poverty or situations of deprivation.

Applications should demonstrate how your project will change the lives of children for the better.

Grants of over £10,000 are available with no upper limit stated, however BBC Children in Need make very few grants over £120,000.

Organisations eligible to apply will be not for profit i.e. schools; registered charities; voluntary organisations; churches; and community groups, etc. In the case of schools, this must not be for work that they have a duty to fund. The Fund is open to applications all year round, but there are a number of deadline and award dates throughout the year. The next deadline is 11:59pm on the 19th May 2019.

BlueSpark Foundation – Deadline: Rolling

Schools, colleges and community groups in England can apply for grants to BlueSpark Foundation to support the education and development of children and young people through educational, cultural, sporting and other projects. BlueSpark is particularly keen to support projects that will help enhance the self-confidence, team working skills and future employability of children and young people. In most cases, grants will be made on a relatively small scale. Many grants will be under £2,000, most will be under £5,000 and only in a few cases will grants exceed £10,000. Funding provided by BlueSpark for a project must be crucial to the project rather than marginally incremental to its funding. The funding available can be for physical assets (such as iPads, sports equipment, or lighting for stage productions) or for services or facilities (such as sports coaching or music or drama tuition) or simply for the provision of experiences (such as theatre visits). These examples are intended to be illustrative and not restrictive as to the funding that BlueSpark may provide to support projects.

Applications can be submitted at any time and must be made online on BlueSpark Foundation's standard Application Form.

British Ecological Society – Deadline: 20th March 2019

The British Ecological Society has announced that its Outreach Grants programme is now open for applications. Through the programme, individuals and organisations such as schools, museums, libraries and community groups will be able to apply for grants to promote ecological science to a wide audience.

The funding is available for projects that increase public understanding of, and engagement with ecology by:

- Increasing public understanding of, and engagement with, ecology
- Stimulating discussion about ecology and its implications for society
- Inspiring and enthusing people of all ages about the science of ecology, especially those not previously interested
- Developing skills in communicating the science of ecology

Applications from museums and schools are welcome but projects must involve significant outreach beyond schools, as those aimed solely at delivering curriculum to schoolchildren will not be considered. Grants are not be awarded for purely nature conservation purposes or any activity that does not promote the science of ecology. Projects supported will:

- Be aimed at a non-academic audience
- Provide a clear demonstration of direct interaction with the audience
- Show evidence of links to the research community at UK, regional and international levels, where appropriate

The maximum award is £2,000, which may form all or part of the total costs of the project. Larger projects involving other sponsors are also funded. In 2017, 14 grants were awarded from a total of 112 entries, therefore potential applicants are advised to take note of the Scoring Criteria to make sure that their project is in line with the expectations of the BES assessors.

The closing date for applications is the 20th March 2019.

The majority (85% of grants) are made to charities and educational bodies (with charitable status). Schools wishing to apply need to have either charitable status or "exempt charity" status.

The next closing date for applications is the 8th April 2019. For further information on the types of grants awarded by BFSS both in the UK and internationally, please [click here](#)

EnAble Fund for Elected Office – Deadline: See website

The EnAble Fund for Elected Office is provided by the Government Equalities Office and is administered by Disability Rights UK. The Fund is intended to cover the additional financial costs associated with a disability or health condition, which would otherwise prevent someone from seeking elected office. The overall aim of the Fund is to create a level playing field for disabled people and people with a long-term health condition - not to give anyone an unfair advantage.

The Fund can cover the cost of the reasonable adjustments required to enable someone to stand for elected office. This could include items such as BSL interpreters, Assistive Technology, a Personal Assistant to assist with specific tasks, or taxi fares where other modes of transport are not appropriate.

The EnAble Fund for Elected Office runs until May 2020 and is therefore primarily intended to support disabled people seeking election in the Local Elections in May 2019 and the Police and Crime Commissioner Elections in May 2020.

Applicants to the Fund must have:

- A physical or mental impairment that has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities.
- A genuine intention to seek elected office, for an election that takes place during the timescale of the fund. These will include Local Government Elections in May 2019 and Police and Crime Commissioner Elections in May 2020.

To find out more about the Fund, how to apply and to discuss eligibility, please contact:

Telephone: 0330 995 0400 and select Option 1

Trustees are sympathetic to projects that widen geographical access to the performing arts, for example through festivals and touring.

Through the Conservation funding stream, the Trust will support projects to conserve historic objects, collections and features of buildings and landscapes that date from the Georgian period or earlier, i.e. pre-1830s. Projects may include acquisition costs (for objects) and conservation surveys as well as remedial work.

Trustees are inclined to give grants to smaller projects, or specific elements of projects, where their contribution can make a greater impact. Government data shows that looked after children have significantly poorer educational outcomes than children not in care throughout primary and secondary school, with the gap widening as children get older. Young carers experience similarly poorer educational outcomes and studies suggest that almost a third of young carers experience educational problems, such as absenteeism, as a direct result of their caring role.

The programme offers funding and non-financial support and aims to pilot novel approaches to improving the educational attainment of these children and young carers which can be scaled up so that in time they are able to take advantage of opportunities afforded by tertiary education and employment. Funding of no more than £100,000 will be available over a 3-year period and match funding will be required.

Applications will be considered from educational or training institutions which have UK charitable status or, in the case of schools, colleges, universities and Churches, "exempt charity" status.

Sobell Foundation (The) – Deadline: Rolling

The Sobell Foundation was established by the late Sir Michael Sobell in 1977 for general charitable purposes and is a grant-making trust with which he was actively involved until shortly before his death in 1993. The deed of charitable trust, under which the Sobell Foundation was formed, is not specific about the objects of the Trust and allows the Trustees absolute discretion to apply funds for general charitable purposes.

We are not involved in fund raising and rely upon income from our investments to make grants. Grants tend to be made in line with the founder's interests which are principally causes benefiting children, the sick, elderly, needy and disabled. The Trustees aim to achieve a reasonable spread between Jewish charities (operating principally in the U.K. and Israel) and non-Jewish charities operating in the UK.

We will only consider applications from charities registered with the Charity Commission, or charities that hold a Certificate of Exemption from the Inland Revenue. Overseas applicants must supply the details of a UK registered charity through which grants can be channelled on their behalf.

We concentrate our funding on small national or local charities; the trustees are unlikely to support large national charities which enjoy wide support. We do not accept applications from individuals.

Sport England (Community Asset Fund) – Deadline: Rolling

Sport England has launched its new capital fund, the Community Asset Fund, in support of its new strategy 'Towards an Active Nation'.

Community organisations, clubs, statutory bodies and educational establishments can apply for investments of up to £150,000 for projects which create or improve opportunities to play sport and get active in local communities.

Grants do not have to be used for a traditional space or traditional sport. Examples of eligible project locations include: canal towpaths, woodlands and open spaces with the potential to be used and enjoyed as part of an active lifestyle.

There are three levels of grant investment:

- **Small Scale Investments** (£1,000 and £15,000) – to cover the cost of emergency works due to something like storm or flood damage, or something totally unexpected that is stopping people from being able to stay active right now.
- **Medium Scale Investments** (£15,000 and 50,000) – to make more substantial changes. This might be an upgrade to an existing facility or developing a new space in the community.
- **Large Scale Investments** (£50,000 and £150,000) – for projects which can demonstrate a considerable impact or are targeting under-represented groups.

Applications will be accepted at any time. Applicants should apply when their project or idea is ready.

Funding for Schools

Ashden Trust – Deadline: rolling

The LESS CO2 sustainable schools programme is a free energy efficiency programme available to any UK school including council run, academy or independent schools.

Funded via the Ashden Trust, the programme consists of a series of half day workshops spread through the year, peer mentoring, expert advice and resources. Through participation in the programme, staff are empowered and equipped to make changes and improvements to their school to reduce their energy usage, save money on bills and lower their CO2 emissions. Schools work together, learning from each other in clusters of 15 schools in a suitable geographical area, attending four local workshops throughout a year. The workshops teach the school's representatives about energy saving in their buildings, how to engage with their fellow staff and students about energy, and educate them about the link between sustainability, energy use and efficiency. So far, 269 schools have benefitted from the scheme with those taking part saving on average £2,600 (and 10 tonnes of carbon) in their first year.

Every school in the UK is eligible to apply by registering an interest on the LESS CO2 website at any time.
