

SCVO Vision 2030 LGBTQ+ Health Challenge Fund: Grant Programme Guidance Notes

(i) Introduction

Vision 2030 sets out the ambitions towards making Sandwell (in 2030) a thriving, optimistic and resilient community. Central to this vision is the message of closer partnership working between all sectors and communities across the borough.

The aspiration is for Sandwell (now and in the future) to be where we call home and where we're proud to belong – where we choose to bring up our families, where we feel safe and cared for, enjoying good health, rewarding work, feeling connected and valued in our neighbourhoods and communities, confident in the future, and benefiting fully from a revitalised West Midlands.

SCVO is a Sandwell-based charity, working across the whole of the borough, with a mission to help local residents and communities access support, which enables them to take greater control of their lives, overcome challenges and make the most of opportunities available to them.

SCVO is delivering this grant programme, on behalf of and in partnership with Sandwell Metropolitan Borough Council (who are providing the funding), to enable voluntary and community groups to deliver activities in Sandwell, and to Sandwell residents, to support the following priorities:

(a). Purpose of the Fund

According to the 2021 census there are approximately 6,810 people in Sandwell who identify as LGBTQ+. National evidence shows that people who identify as LGBTQ+ face health inequalities and have disproportionately worse health outcomes and experiences of healthcare.

The LGBTQ+ Health Challenge initiative aims to improve physical and mental health, healthcare access, and social connections leading to better health outcomes for the LGBTQ+ community in Sandwell.

Grants will be awarded to support work across the following themes:

- **Physical Health and Health Behaviours:** promote and build on the interest in opportunities for group physical activity.
- **Mental Health and Wellbeing:** support mental health and wellbeing initiatives tailored to the LGBTQ+ population.
- **Health Services and Access to Health Services:** explore ways to improve access to healthcare, particularly in general practice surgeries, for the LGBTQ+ community.
- **Social Capital:** support Sandwell LGBTQ+ community groups and peer networks for different age groups, including older and young people.
- **LGBTQ+ Awareness Training:** for groups to undertake training that may help them to better understand and support the needs of the LGBTQ+ community more generally.

Cont.../ Page 2 – Groups that ...

Groups that received awards in Round 1 may further apply in Round 2, but the expectation is to see project proposals that build on/develop the learnings of Round 1 awards (and not simply be funding additional provision at the same level).

(b). Grant Amounts

Funding is available as follows:

- **For themes 1-4 (above):** a grant of up to £5,000 that can be spent over a 1-year delivery period (min £500).
- **For theme 5:** a one-off microgrant of £500 towards all, or part, of the cost of appropriate training.

(c). Eligibility

Eligibility for funding is limited to voluntary, community and not-for-profit/charitable organisations that fit within the definition of the Voluntary and Community Sector (VCS) as detailed in [Appendix 1](#).

If you are in any doubt as to your eligibility, please telephone/email (see below) to seek clarification.

(d). Principles of Stronger Sandwell

The project should reflect the following three principles:

- Build on Sandwell's Strengths** - Sandwell's biggest strength is its community. Everything we do will be based on local people's ideas and skills. In that way, we'll do our work WITH local people not TO them.
- Local Focus and Investment** - We'll invest time and resources locally. That means focusing on projects run BY local people FOR local people, not by large companies from outside the area.
- Nobody is Left Behind** - We'll make sure that we never forget those facing the biggest life challenges. This may include the oldest and youngest members of our community, as well as those living with disabilities or financial hardship. Our Stronger Sandwell is for everyone!

(e). Outcomes

Project delivery should focus on one or more of the following outcomes:

- Provision of accessible activities to support mental health and wellbeing for the LGBTQ+ population.
- Increased opportunities to hear the voice of the LGBTQ+ community and raising awareness and understanding of issues.
- Improved access to healthcare, in particular General Practice for the LGBTQ+ Community.
- Individuals feeling more socially connected in the LGBTQ+ community in Sandwell.
- Individuals feeling socially less isolated in the LGBTQ+ community in Sandwell.
- Improvement in reported wellbeing by participants.
- Organisations, and employees/volunteers therein, have a better/ increased understanding of the LGBTQ+ community.

(f). Outputs

- Increase in the number inclusive group physical activities opportunities in local communities.
- Increase in numbers of peer support groups available for all age groups including the elderly & young people.
- Increased participation in appropriate training for groups.

We are also looking to capture additional (anonymous) demographic data:

- Age
- Ethnicity
- Gender identity (as defined by 2021 Census)
- Sexual orientation (as defined by 2021 Census)
- Service User town/location (via first 3 characters of postcode only)

(ii) Notes on Completing the Application Forms

- **How you will evidence the changes** – tell us how you will show us what's changed in project participants. For example, what sort of questions might you ask of participants and how will you record their responses to show that your project has made a difference? What methods of recording might you use? APPENDIX 1 – Definition of the Voluntary and Community Sector

Introduction

Sandwell's well-established VCS is a vibrant and diverse collection of over 1,000 charitable and not-for-profit businesses, social enterprises, advocacy organisations, faith, community, and neighbourhood groups. Together, the many different parts of the VCS make a huge impact on the lives of Sandwell residents. It engages large numbers of volunteers who give their time freely to support others and makes a significant economic impact as a route to bringing funds into the borough and as an employer of a significant workforce.

Sandwell Council and SCVO have developed a shared definition of the voluntary and community sector in order to be more consistent in our approach to partnership working and grant giving.
